

### 7.2.1 Describe two best practices

1. **Sports:** The college encourages a significant number of students to participate in sports. Our college's large playground contributes to our students' desire to participate in numerous sports activities. Every year, a number of our students win championships in university-level Kho Kho and Kabaddi contests. Our students compete in University Meets and inter-district events and consistently become champions in various athletic events. This emphasis in Sports and Physical Education is reflected by the success of our students.

1. **SANKALPA DIVAS:** The college observes “SANKALPA DIVAS”: an oath-taking ceremony for the freshers. The students are imbued with universal values, professional ethics as well as a code of conduct. The students are sensitized about their role as a citizen of India and are initiated into a life within the campus in search of academic excellence and professional development. In this initial interaction with the students, various faculty members provide the students with the essence of man-making education.
